

The Geography of Food and Health Definitions and Case Studies

Key Term	First Attempt at Definition	Definition
disease		
vector-borne		
water-borne		
food miles		
HALE		

Key Term	First Attempt at Definition	Definition
TNC		
life expectancy		
lifestyle		
infant mortality rate		
child mortality		
calorie intake		

Key Term	First Attempt at Definition	Definition
health services		
prevention as opposed to treatment		
malnutrition		
temporary hunger		
chronic hunger		
famine		

Key Term	First Attempt at Definition	Definition
food security		
agribusiness		
Green Revolution		
food deficiency		
trade barriers		
agricultural subsidies		

Key Term	First Attempt at Definition	Definition
bilateral agreement		
multilateral agreement		
food aid		
free trade		
fair trade		
sustainable agriculture		

Key Term	First Attempt at Definition	Definition
energy efficiency ratios		
sustainable yields		
diseases of affluence		
diseases of poverty		
diffusion by relocation		
diffusion by expansion		

Syllabus Content	Case Study / Example	Four Bullet Points About Case Study
<p>the geographic factors that determine the relative emphasis placed by policy-makers, in one country or region, on prevention as opposed to treatment of disease</p>		<p> </p> <p> </p> <p> </p> <p> </p>
<p>Green Revolution</p>		<p> </p> <p> </p> <p> </p> <p> </p>
<p>the environmental, demographic, political, social and economic factors that have caused areas of food deficiency and food insecurity</p>		<p> </p> <p> </p> <p> </p> <p> </p>

Syllabus Content	Case Study / Example	Four Bullet Points About Case Study
<p>variety of causes responsible for a recent famine</p>		<p> </p> <p> </p> <p> </p> <p> </p>
<p>the impacts at a variety of scales of trade barriers, agricultural subsidies, bilateral and multilateral agreements, and transnational corporations (TNCs) on the production and availability of food</p>		<p> </p> <p> </p> <p> </p> <p> </p>
<p>the relative importance of food aid, free trade and fair trade in alleviating food shortages.</p>		<p> </p> <p> </p> <p> </p> <p> </p>

Syllabus Content	Case Study / Example	Four Bullet Points About Case Study
diseases of affluence		<div style="border: 1px solid black; height: 100%; width: 100%;"></div>
diseases of poverty		<div style="border: 1px solid black; height: 100%; width: 100%;"></div>
the geographic concepts of diffusion by relocation and by expansion apply to the spread of diseases		<div style="border: 1px solid black; height: 100%; width: 100%;"></div>

Syllabus Content	Case Study / Example	Four Bullet Points About Case Study
<p>geographic factors responsible for the incidence and spread of two diseases</p>		<p> </p> <p> </p> <p> </p> <p> </p>
<p>the geographic impact of these two diseases at the local, national and international scales</p>		<p> </p> <p> </p> <p> </p> <p> </p>
<p>the management strategies that have been applied in any one country or region for one of these diseases</p>		<p> </p> <p> </p> <p> </p> <p> </p>
