

Population Pyramid Task

1. Plot the two population pyramids from the data tables, onto graph paper.
2. One of the pyramids is for the UK, the other India. Decide which pyramid belongs to which country and label them clearly.
3. Cut out the statements below and stick them around the correct pyramid.

Poor medical facilities.	Very limited access to contraception.
Has a high number of mobile phones and internet connections	Many children needed to work the land.
Better medical facilities.	Is a Less Economically Developed Country (LEDC).
Low birth rate	Slow population growth.
Is a More Economically Developed Country (MEDC).	Many people dying (high death rate).
Rapid population growth.	Low death rate.
Grandparents are rare.	A high life expectancy.
May soon enter a time where the population starts to decline.	Many babies being born (high birth rate).
