

Climate

Main climates	Precipitation	Temperature
A: equatorial	W: desert	h: hot arid
B: arid	S: steppe	k: cold arid
C: warm temperate	f: fully humid	a: hot summer
D: snow	s: summer dry	b: warm summer
E: polar	w: winter dry	c: cool summer
	m: monsoonal	d: extremely continental
		F: polar frost
		T: polar tundra

Download the Google Earth Overlay of the **Köppen-Geiger Climate Classification** from the link on geographyalltheway.com plus the Worksheet Placemarks.

For each of the locations in the table below find out the code for the **climate** classification they are in and then use the code to write down the 'Main Climate', 'Precipitation' and 'Temperature'.

Location	Key	Main Climate	Precipitation	Temperature
Alicante, Spain				
Anchorage, Alaska, USA				
Arkhangelsk, Russia				
Belém, Brazil				
Cairo, Egypt				
Gruissan, France				
Lhasa, Tibet, China				
Nairobi, Kenya				
Toulouse, France				
Singapore, Singapore
